NOTICE.—

We hereby notify the public that, from and after this date, we employ no agents for the sale of

Gregory's Dyspeptic Mixture.

Neither are there any interested parties with us. We are the inventors, sole proprietors, and only manufacturers of the essential articles, and our individual signatures accompany each bottle, and all orders and remittances must be made to Drs. W. W. & R. K. GREGORY, at Charlotte, N. C.

In assuming the entire charge of this invaluable remedy, we present it to you in a new dress, and have reduced the price to $1 50 per bottle, to bring it within the reach of all. In the pamphlet which accompanies each bottle will be seen the certificates of the most distinguished physicians, judges and divines, in the State, and we only ask for it a trial, that dyspeptics may be convinced of its curative virtues.

A liberal discount to the trade.

THE ADVANCE.

A Weekly Family Journal,

DEVOTED TO

The Farm, The Garden, The Workshop, Domestic Economy and General Progress in North Carolina.

The undersigned proposes to publish in the City of Raleigh, as soon as a sufficient number of subscribers can be obtained, a Weekly Family Journal, adapted to the wants of the people of North Carolina, who are engaged in the cultivation of the soil in all its branches, the improvement of our manufactures, our machinery, our mechanical skill, and all the material interests of the State.

In the conduct of the paper he expects to secure the aid of scientific and practical men to instruct and interest his readers. His object will be to make it eminently practical, and useful to all classes.

It will be printed in good style, on good paper of large size at $2 per year, in advance. The first number will appear about the 1st of November, or as soon thereafter as the patronage will justify. Subscribers will be expected to pay as soon as they receive the first number.

The undersigned solicits the aid of his many friends in the State to obtain subscribers and forward the lists at an early day. WM. E. PELL.

CAROLINA TIMES.

CHARLOTTE.

R. P. WARING, Editor.

Wednesday, November 10, 1869.

Newberne, following in the wake of Wilmington, recently held a meeting to protest against the leasing of the North Carolina Railroad. Charlotte, by far the most deeply interested locality, has not had a word to say in regard to it. Her usually wide-awake and enterprising men seem strangely at fault in this matter. We cannot account for this lukewarmness. The leasing this Road, to the Raleigh and Gaston, would jeopardize the interests of this city more than anything that could happen. It would clearly defeat the making of this city a point on the Air-Line, and necessarily compel its President to seek a connection with Danville, by a route not dependent on the North Carolina Railroad. Mr. Beaufort could never consent to have passengers over the Air-Line forced to Raleigh, for by such a combination, discrimination would be made against the Danville road. Besides, a corporation so large, extending as it would from Weldon to Charlotte, would overshadow all others, and in combination with the "ring" control the State government and Legislature during its existence.

This city is just now in a more critical condition than it has ever been since she has became a Railroad centre, and it is our duty to look the facts in the face. With the Air-Line passing by and leaving her out in the cold; with the Statesville road sold to parties who have no interest in rebuilding it; with a road from Camden to Lancaster to cut off her trade from that district, her future will be bo dark indeed—all of which will happen if her citizens do not arouse themselves to meet the emergency. In the first place, this lease must be defeated; that done, then the Air-Line comes here. The Statesville road must not be sold, but rebuilt; that extends our trade in the mountain regions, and the Georgetown route must receive our hearty co-operation, in order to defeat the Waterée scheme. Then let our capitalists and real estate owners encourage mechanics and mechanical arts by investing their money in factories and workshops, and then Charlotte will rival Atlanta in the rapidity and solidity of her growth. But if they look supinely on and let this Railroad combination under the manipulation of the "ring" proceed, Charlotte will be as dead a place as any in the country.

Gold.

Gold is lower now, says the Petersburg *Index*, than it has been at any time since the summer of 1866. The probability is that it will go still lower, and that the prices of all merchantable articles, particularly those of foreign growth and manufacture, will decrease in a corresponding ratio. The fall in value of gold in some measure accounts for the decline in cotton, though not entirely. At 1 27 for gold, cotton at 24 is worth nearly 19 cents in gold, while at 1 40 for gold, 27 for cotton is equal to about the same in gold, and as the precious metals approach in value our currency, the great staple will go along with it. This should teach a lesson to all who are in debt, and that is, in every way reduce your liabilities. The sum total of an individual's bills payable, remains stationary, while the currency in which they are payable becomes more and more valuable, so that to meet them a large amount of produce is necessary. While the gold market is getting weaker, and weaker daily, it is no time for persons who are in debt to hold articles of merchandise or production which they rely to meet their indebtedness. It would be well for all such who are in this predicament to learn this fact, and to regulate their action accordingly. For years the premium on gold has been maintained by the speculations of the moneyed men of Wall street. The late grand burst up has so crippled and demoralized them, that, if they have the means, they have not the spirit to continue their operations; so that we may look for no reaction. It is the opinion of our financiers that the premium is now lower than it should be, and that it will be still lower, and he will be wise who acts on this hypothesis.

A HOME ENTERPRISE.—The first number of the second volume of the CAROLINA FARMER is on our table.—This really meritorious journal has been changed from a monthly to a weekly, and contains eight pages (five columns each) of choice original and selected reading matter for the farm and fireside. It has a beautifully engraved head, and handsome rule border with tastefully designed corner pieces. In typographical execution it is a credit to Southern skill and enterprise. Published at the low price of $2.00 per year. Address Wm. H. Bernard, Editor and proprietor, Wilmington, N. C.

HENRYS CLAY'S CRADLE.—Among the articles which ware sent for exhibition at the Richmond Fair, but, which was unavoidably thrown out, was the cradle in which Henry Clay was rocked. Mrs. N. B. Griffin is the lady who owns it. The cradle was bought at Mr. Clay's sale by Captain Nat. Bowe, of Hanover co., and has been preserved by the family with great care. It was a source of great mortification to Mrs. Griffin that this precious relic should have been left out.

AN AFFECTING INCIDENT.—At Providence, the other evening, where Miss Maggie Mitchell was playing "Little Barefoot," just as the company was ready to go on the stage, Mr. Sutton, who was to play the part of the old man "Mortimer," received a telegram that his mother was dead. The play went on, and soon the cheeks of Miss Mitchell and Mr. Sutton were bathed in genuine tears, but the audience little knew the reality of the grief. Miss Mitchell's mother died only a short time since.

SACRILIGIOUS CONDUCT.—The Valley *Spirit*, a Pennsylvania paper, says:

Some two weeks ago, at a religious meeting of the Baptists held at St. Thomas, a few "young bloods" behaved in a most outrageous manner. They entered the church while the Sacrament of the Lord's Supper was being served and disturbed the congregation with horrid profanity and blackguardism. After the meeting was dismissed they went in, sat down at the table, and devoured the remnants of what had been provided for the communicants.

REPRESENTATION IN CONGRESS.—The Census Committee will meet in Washington on the 17th instant.—The important question of reducing the ratio of representation in Congress, and thereby, while increasing the number of members of the House reducing the labor of correspondence, &c., now devolved upon them, will be considered by the committee. It has many friends, and promises to be a subject of more than ordinary attention during the next session.

The Reform Convention of Jewish Rabbis in Philadelphia adopted resolutions favoring a change in the marital laws, acknowledging the woman as the equal of the man, and providing for an exchange of rings as part of the ceremony, and also abolishing divorces by the church and leaving the power of divorce entirely to the judiciary of the States.

A little girl, on hearing her mother say that she intended to go to a ball, and have her dress trimmed with bugles, innocently inquired if the bugles would blow while she danced. "Oh, no," said the mother, "your father will do that when he discovers I have bought them."

"Have you ever resd the 'Ancient Mariners?'" asked Rev Mr. Spurgeon. "I dare say you thought it one of the strangest imaginations ever put together, especially that part where the old mariner represents the corpses of all dead men rising up to man the ship—pulling rope steering and spreading her sails. I thought what a strange act that was. But I have, since then, gone into churches, and have seen a dead man in the pulpit, a dead man as a deacon, and dead men sitting to hear."

HOGS—PRICES IN THE WEST. Since the packing season has opened in earnest in the Western cities the receipt of hogs has been more liberal than was anticipated. In Chicago a marked decline has taken place, and also at St. Louis, Louisville and Cincinnati, packers are merely purchasing enough to supply immediate consumption. Engagements for mess pork for future delivery are being made at prices indicating a still further decline.

PENNSYLVANIA has named an oil well "Olive Logan"—not because it is a great bore, but for the reason that it flows freely at the mouth.

A Remarkable Case.

The *L' Italie*, of Florence, extracts from "Annales de la Medecine et de Chiruggie Etrangere" the following extraordinary history:

"On the 18th of April, 1868, in the prison of Vallarica (province of Minas Garaes), in Brazil, two men, named Aveiro and Carines, were executed at the same time. In Brazil executions take place with closed doors, in the interior of the prison. Dr. Lorenzoly Carmo, of Rio Janeiro, well know by savants for his remarkable works on electricity applied to physiology, his surgical skill, and his success in autoplastic operations, obtained permission to profit by this event in order to experiment on the power of electricity and illustrate its analogy with some of the phenomena of life. The numerous experiments higherto attempted have been made on the head and trunk separately. Lorenzo by Carmo's design was, if possible, to unite the head to the neck after decapitation. The heads of the two criminals fell within a few minutes of each other into the same basket—first that of Carines, then that of Aveiro. Immediately after this second execution a compression was effected by a pupil of Dr. Lorenzo on the carotid arteries of one of the heads, so as to stop the hemorrhage. The body was then placed on a bed already prepared, and Dr. Lorenzo stuck the head as exactly as possible on the section, and kept it in that position. The cells of a powerful electric pile were applied to the base of the neck and on the breast. Under this influence, as in former experiments, the respiratory movements were at once perceptible. As the blood (which penetrated in abundance through the surface of the scar) threatened to stop the passage of air, Dr. Lorenzo had recourse to tracheotomy. Respiration then ensued regularly. The head was fastened to the body by stitches and by a special apparatus. The physiologist wished to ascertain for how long a time this appearance of life could thus be artificially maintained. His astonishment was great when he saw that at the end of two hours not only did respiration still continue under the influence of the electric current, but that circulation had even resumed a certain regularity. The pulse beat feebly but sensibly. The experiment was continued without intermission. At the end of sixty-two hours it was evident, to the astonishment of every one, that a process of cicatrization had commenced on the lips of the section. A little later, signs of life manifested themselves spontaneously in the head and limbs, till then deprived of motion. At this moment the director of the prison, arriving for the first time in the experiment-room, observed that by a singular mistake, due to the haste of the operation, the head of Carines had been taken for that of Aveiro, and been applied to the body of the latter. The experiment was continued notwithstanding. Three days later the respiratory movements reproduced themselves, and electricity was suppressed. Dr. Larenzo y Carmo and his assistants were stupefied, frightened at a result so unexpected, and at the power of an agent which, in their hands, had restored life to a body whose right to exist the law had forfeited.

"The learned surgeon, who had only had in view a simple physiological experiment, employed all his skill to continue this work, which science, aided against all expectation by nature, had so singularly commenced. He assisted the process of cicatrization, which progressed under the most favorable conditions. By means of an œsophagian probe liquid nourishment was introduced into the stomach.

At the end of about three months the cicatrization was complete, and motion, though still difficult, became more and more extended. At length, at the end of seven months and a half, Aveiro-Carines was able to rise and walk, feeling only a slight stiffness in the neck and a feebleness in the limbs."

The Radicals here are dismayed at the result of the New York election, for although they expected that the Democratic candidate for Secretary of State might possibly be elected by a small majority, they were by no means apprehensive of losing the Legislature. The next Legislature elects the United States senator in the place of Conklin, and the Republicans fear that the present Democratic success will shape matters next year.

The rumors that Secretary Boutwell intends bringing out a four per cant. loan finds great credit here. Parties have written from Europe urging that a financial plan of that character be adopted, and prominent financiers who are satisfied that the reductions of the public debt as shown by the statements issued on first of every month, together with the gradual reduction of expenditures in all the Government Departments, have inspired sufficient confidence to guarantee the success of a new loan, will doubtless take up a large share of it. It is hardly probable, however that any public official allusion to it will be made until the Secretary's report is sent to Congress.

THE FRYING PAN.—"Died of a frying," is the epitaph which the Columbus (Georgia) *Enquirer* says appropriately belongs to the graveyards of thousands of Southern people, on account of the manner of preparing food in that part of the county. The editor says of the Southern man: "His standard food is a piece of bacon fried; the fat taken and with flour or meal mixed into a heavy mass, and consigned to the inevitable frying pan, and out comes a lump of leathery-looking something which the stomach of an ostrich could not digest. Give him a chicken, and what does he do with it? Cuts it up, and into the frying pan it goes; after being slowly simmered until hard, it is put into a deep dish and grease poured over it, and what is not soaked up in the chicken is made away with by soaking his frying pan bread in it. Give him a rich, juicy steak, and into the frying pan it goes, and is slowly simmered and simmered until no knife will cut it, and then eaten with heavy bread soaked in the remaining fat; and thus good, wholesome food, in quantity sufficient to afford a wholesome meal for a French artisan's family, is by the frying pan process, rendered not only barely enough for one man, but converted into a slow poison and a fruitful source of disease. Scarcely a day passes but some poor sufferer applies to me for relief from the "Frying Pan Disease," which relief I am unable to give, without an entire change in his or her habits; and unless such change is effected, whose appropriate epitaph will be,

"Died of a Frying Pan."

ANNUAL COUNCIL OF THE EVANGELICAL LUTHERAN CHURCH.—The Third annual Council of the Evangelical Lutheran Church of North America, commenced its session in Chicago on the 5th inst. About seventy-five delegates were present. But little was done the first day beyond delivering the President's address.

At the session this morning the Rev. Mr. Schmucker, of Pennsylvania read the report of the Executive Committee of the Ministerium of Pennsylvania and the adjacent States, which was adopted.

The election of officers then took place, with the following result: President, Rev. G. F. Kratel; English Secretary, Rev. H. W. Roth; German Secretary, Rev. A. Speth; English Corresponding Secretary, Rev. B. M. Schmucker; Norwegian Corresponding Secretary, Rev. O. J. Hathstadt; Swedish Corresponding Secretary, Rev. Edward Carison.

The remainder of the morning session was devoted to formalities and appointments.

STATUE TO GRANT.—The committee having in charge the erection of the equestrian statue of Gen. Grant have obtained a sufficient amount of subscription to warrant them in proceeding with the work, and to-day directed sculptor, J. A. Bailey, of Philadelphia, to proceed with the statue. The statue will be of bronze, cast from cannon captured by Gen Grant. It is to be of colossal size; the pedestal is to be a single block of granite. It will be erected on the terrace on the south front of the Treasury Building. The full height of the statue will be about twenty-five feet, exclusive of the pedestal. The total cost, including pedestal, will be about $55,000. Mr. Mallett, the supervising architect of the Treasury Department, will have the south front of the Treasury repaired and ready for the statue by the first of January next.

SPECIAL NOTICES.

Impaired Digestion.

All the organs of the body are, so to speak, the pensioners of the stomach. In that living laboratory is prepared the nourishment required to sustain them, and by the vessels and ducts connected with the digestive apparatus, that nourishment is conveyed to every part of the system. Upon the quality and quantity of this element of life, and upon the manner in what it is distributed and apportioned, physical health mainly depends, and as the mind inevitably sympathises with the body, the vigor of the one is absolutely necessary to the well-being of the other.

It is because HOSTETTER'S STOMACH BITTERS accomplishes this double object that it enjoys a reputation, as a preventive and curative never heretofore attained by any medicinal preparation. But its direct beneficial operation upon the weak or disordered stomach is not its sole recommendation. It is the most comprehensive of all known remedies. It tones, strengthens and regulates the discharging as well as the assimilating organs; gently moving the bowels, promoting healthful evaporation through the pores, rousing the inert liver from its torpor, and inducing harmonious and natural action in the whole animal machinery. This benign result is not produced by any of the reactionary drugs which are used solavisitly in the old school practice, founded by Para elsus, but by mild, safe and agreeable vegetable agents intermixed with a pure and mellow stimulant which diffuses their influence through the system and renders their sanitary properties active and effective.

What the Druggists Say.

REMSENBURG, O., Aug. 14, 1867.

Gents—I have been dealing in proprietary medicines for the last fourteen years, and have never before found a preparation that would equal your "Pain Killer." It not only sells very rapidly, but gives the most perfect satisfaction in every case that has come to my knowledge.

In my practice I very seldom prescribe patent medicine, but, having entire confidence in your "Pain Killer," and knowing that it possesses valuable medical proportions, I freely use it in my daily practice. It is the most standard medicine I have for sale, and many families in this vicinity would as soon think of being out of BEEF OR BREAD as without a bottle of Pain Killer in the house.

Yours, very truly,

C. P. Benson & Co., of Charlottesville, Va., write—Your Pain Killer is decidedly the most popular proprietary medicine sold in this State.

GAY AND FESTIVE ESTES—THE LITTLE BOY WHO CAME TO GRIEF.—Rumor has had it for a day or two past, that T. G. Estes, the gay and festive Collector of Internal Revenue for this, the Second Collection District, was a defaulter to the amount of several thousand dollars. Yesterday the matter was officially brought to light at the U. S. District Court, Judge Brooks presiding. The grand jury returned two true bills of indictment against Estes—one for embezzling public money to the amount of fifteen thousand ($15,000) dollars, and the other for making as Collector false returns to the Commissioner of Internal Revenue. On motion of the District Attorney the cases were transmitted for trial to the U. S. Circuit Court to be held in the city of Raleigh on the 29th of November, and capias was directed to issue to said term.

TO THE WORKING CLASS.—We are now prepared to furnish all classes with constant employment at home, the whole of the time or for the spare moments. Business new, light and profitable. Persons of either sex easily earn from 50c. to $5 per evening, and a proportional sum by devoting their whole time to the business. Boys and girls earn nearly as much as men. That all who see this notice may send their address, and test the business, we make this unparalleled offer: To such as are not well satisfied, we will send $1 to pay for the trouble of writing. Full particulars, a valuable sample, which will do to commence work on and a copy of *The People's Literary Companion*—one of the largest and best family newspapers published—all sent free by mail.—Reader, if you want permanent, profitable work, address E. S. B. SEXTON'S CELEBRATED

PATENT BALTIMORE PARLOR HEATERS

AND GAS BURNERS,

for Anthracite or Bituminous coal, have been in successful operation for the last ten years, and have proved to be the best Fire-place Heaters manufactured and put in operation. They are getting to be generally used, often in the place of furnaces, for heating the lower and upper rooms in dwellings and offices. Two or three Stoves heating the largest dwellings, and besides, are quite ORNAMENTAL and ILLUMINATING, having all the beauty and cheerfulness of an open grate fire, but are more ECONOMICAL, CLEANER, and RADIATING A LARGER AMOUNT OF HEAT. We can refer to thousands of families who have them in use.

We manufacture our own COOKING STOVES, and we guarantee them to be equal to any sold for *baking* and *cooking*. We have Stoves to take in *long wood* and with *large ovens*, and are *superior Stoves for baking*. We are getting out some new patterns of Cooking Stoves, that will burn *Bituminous coal, hard coal, or wood*. They will have a beautiful finish, and will stand among the No. 1 Cook stoves. Our Cooking Stoves are Baltimore made, and we guarantee the plates. Our Cooking Ranges are pronounced the best and cheapest in the market.—Baking of all kinds can be done in our Ranges as quickly and equally as well as in a Brick oven. We will manufacture S. B. SEXTON'S new pat'n't Hot-Air Furnaces, warranted to burn from 80 to 90 hours with once filling.

Thankful to our friends and the public for their past favors, we solicit a continuance of their patronage.
